SUPREMACY

DIGITAL MEDIA KIT 2022

WHAT IS SUPREMACY?

DEMAIC

A revolutionary sustainable play and earn metaverse game, where AI-controlled War Machines destroy each other in a 24/7 Battle Arena.

In the year 2149, governments have fallen and the world is a battleground for the AI-run factions. Pledge your allegiance to your syndicate, influence their battles and earn.

\$5UPS tokens are your economic power in the Supremacy world, from voting and influencing the Battle Arena, to buying in-game assets (such as War Machines, Weapons, and Abilities), to supporting an entire in-game economy as many goods and services can be bought, sold, rented, and leased for \$5UPS in later phases.

KEY GAME FEATURES

3 LORE-BASED FACTIONS

TOKENOMICS

BUY \$SUPS

TOKEN UTILITY COMING SOON: NEW MECHS, WEAPONS, LAND, RESOURCES ++

3

Alex's vision is to bring sovereign ownership of digital game assets and interoperability of game worlds through NFTs. You can read more about Alex's metaverse vision in his manifesto at proofofmetaverse.com.

JOHN NGUYEN CHIEF TECHNICAL OFFICER

John has been active in the cryptocurrency and blockchain space since 2012 when he traded 0.6 BTC for malaria medication in a dark alleyway in Ghana, West Africa.

When he isn't tinkering with DeFi, 3D printing, electronics, or making music, John and co-founder Alex Dunmow are tirelessly growing the strongest dev house and group of Web 3.0 builders in Australia, providing a real, proven platform for Metaverse Gaming.

LAN TRAN CHIEF SALES OFFICER

Lan has worked around the world, leading sales teams, and brings a wealth of contacts and proven strategies critical to our global reach and marketing team.

She focuses on building key relationships and securing industry partnerships for Supremacy and XSYN.

REECE ROGUSKI in **CHIEF OPERATIONS OFFICER**

Reece oversaw the massive recruitment drive at Ninja, doubling the team to over 40 staff members. He was instrumental in transitioning Ninja from an app agency into one of Australia's largest Metaverse gaming companies.

He focuses on managing culture and inter-department relationships.

STRATEGY

H.T. KUTIA

Strategic Advisor

MATI GREENSPAN STRATEGIC ADVISOR

Founder & CEO of Quantum Economics

in

By now we know that blockchain adoption is simply inevitable and nowhere is this more apparent than the world of GameFi, where players can earn money by playing video games. It's with a generous mix of pride and humility that I join the pioneers of Ninja Syndicate to advise on what could likely be an entire new exciting genre.

BRENDAN WONG STRATEGIC ADVISOR

Co-Founder & CEO of Avocado DAO

The Ninja Syndicate team have demonstrated they are extremely capable of delivering an innovative approach to Web3 gaming. They are going against the grain of the current Web3 GameFi Space which, in many aspects, currently lacks variety in gameplay and tokenomics design.

I am excited by the prospect of what Ninja Syndicate are building. I can't wait to see their full vision come to life and it's truly an honour for myself to come on board as an advisor to support their development in building a strong web3 game environment.

HAN HEE LEGAL ADVISOR

Web3 Consultant at Robertson Hayles Lawyers

The Australian Government announced its plans in August 2022 to regulate the crypto-sector with a balanced approach to embrace new and innovative technologies while providing greater protections for consumers. Being thoughtful about the changing regulatory landscape and cross-jurisdictional challenges of the web3 industry, the Ninja Syndicate Team has taken a proactive approach to engage legal advisory early in its web3 gaming strategy.

As a practicing lawyer and web3 advisor, I am excited to work with the Ninja Syndicate Team in building a world-leading crypto-asset ecosystem and licensing framework to create and preserve the value of its crypto-assets - War Machine, Weapon, Land, Resource, \$SUPS Token and more.

Immutable X is excited to provide Supremacy's community with greater functionality and gasless transactions. The Supremacy team's vision to connect players in an interactive and immersive world is one we share and look forward to supporting. Immutable X is always looking for the best emerging games to partner with as we bring the next billion players to web3; Supremacy is no exception.
